

Eye on Engineering & Computer Science

JUNE 25 - JUNE 30, 2006

The **EYE ON ENGINEERING & COMPUTER SCIENCE** summer program at The Catholic University of America (CUA) School of Engineering offers high school students a close-up look at this diverse field where professionals are in demand.

CUA will offer **EYE ON ENGINEERING & COMPUTER SCIENCE**, a six-day tour of the engineering and computer science fields, to rising high school juniors and seniors from across the nation. High achievers in science and mathematics are more likely to be accepted into the program. Take the program the summer before your junior or senior year to learn what professional engineers and computer scientists do and how they are educated. It's a great way to explore a future in engineering and computer science while visiting the nation's capital.

The schedule includes educational, experimental, recreational and social components. **EYE ON ENGINEERING & COMPUTER SCIENCE** is designed to give you a taste of college life—and a realistic look at a career in engineering or computer science. For more information about the program, please visit our website at:

<http://engineering.cua.edu/activities/EyeOnEngineering/>

An application form for **EYE ON ENGINEERING & COMPUTER SCIENCE** is included on the other side of this sheet.

Complete application packages include:

- √ a completed application (on the reverse of this page)
- √ a high school transcript
- √ a letter of recommendation from a math or science teacher
- √ a one to two page essay (typed, 1" margins, 12pt. font) describing your perception of engineering or computer science careers, and why you might be interested in them.

These materials may be faxed or mailed to the Office of the Dean of Engineering; the address is listed at the bottom of the application form.

The program fee for **EYE ON ENGINEERING & COMPUTER SCIENCE** is \$595, which includes room and board. Evening activities which may cost extra are optional. Limited partial scholarships are available, based on need. To apply for one, call the Office of the Dean of Engineering.

**THE DEADLINE FOR COMPLETED APPLICATIONS IS
APRIL 30, 2006.**
